

Pentalquartz offers you not only a wide range of colors, but of finishes as well; including polished, honed, satin, and brushed. Just as each finish has a different look; it also has slightly different characteristics.

PentalQuartz is a beautiful and durable non-porous surface. Some colors are available in our HONED or SATIN finish which offers the soft appearance of a lower sheen compared to the POLISHED finish. The HONED or SATIN finishes require slightly more maintenance than our polished finished materials. Since the honed or satin finish actually creates more surface area to the material it has the potential to show more signs of living from daily use. Possible marks from metal cookware or utensils; fingerprints, food and beverages, and other items placed on, or moved across the countertop, may be visible on the surface. Most marks can be easily removed with a cloth or sponge; or by using household cleaners such as a cleaning eraser or carefully scrubbing with a sponge and a non-abrasive cleaner such as Soft Scrub Advanced Cleaner®. Over time the Honed or Satin finish will develop character and a patina unique to each customer.

Honed and satin finishes can be cleaned using the same products and methods as other finishes, please see our care and maintenance guide at: www.pentalquartz.com

Signing this document acknowledges that you fully understand the unique characteristics of a honed and satin finishes. That it will be more likely to show scuffs, marks, and fingerprints, and it will require more frequent or intense cleaning and maintenance to keep it free from marks. The warranty issued by Pental Granite & Marble for Pentalquartz covers manufacturing defects; however the temporary marks that commonly occur on honed and satin finishes, are inherent to the material, and are not covered under the terms of the warranty.
